

Free Paper

Sl No	Time Slot	Reg No	Title
(10-08-2024) HALL - D			
TIME: 08:30 - 9:30 AM			
Category - Oral Free Paper			
1	08:30 - 08:40AM	210	A comparative study of ultrasound guided transversus abdominis plane (tap) block between ropivacaine 0.2 and ropivacaine 0.2 with dexamethasone for postoperative analgesia following lower segment caesarean section.
2	08:40 - 08:50AM	689	To evaluate the effect of oral pregabalin premedication on duration of analgesia in patients undergoing hysterectomy surgeries under spinal anaesthesia
3	08:50 - 09:00AM	1091	Subtransverse process interligamentary plane block, a feasible preemptive analgesic technique in day care breast surgeries
4	09:00 - 09:10AM	1196	An observational study to evaluate the effect of intramuscular ketamine on post nasal surgery agitation
5	09:10 - 09:20AM	858	A study comparing the analgesic efficacy of intravenous nalbuphine and intravenous tramadol on postoperative pain and analgesic requirements in patients undergoing modified radical mastectomy under general anaesthesia.
6	09:20 - 09:30AM	556	Post operative analgesic efficacy of transdermal fentanyl patch in patients undergoing total lap hysterectomy
(10-08-2024) HALL - D			
TIME: 09:30 - 10:30 AM			
Category - Oral Free Paper			
7	09:30 - 09:40AM	342	A comparative study of the efficacy and safety profile of topical application of tranexamic acid in the form of mist to reduce postoperative bleeding in on pump CABG procedures
8	09:40 - 09:50AM	683	Post operative occurrence of atrial fibrillation and its clinical correlates among patients undergoing coronary artery bypass grafting in a tertiary care hospital.
9	09:50 - 10:00AM	217	A prospective randomized double blind control study comparing the analgesic efficacy of intraperitoneal ropivacaine with dexmedetomidine and ropivacaine with clonidine in patients undergoing elective laparoscopic cholecystectomy
10	10:00 - 10:10AM	289	Effect of intravenous magnesium sulphate and lidocaine infusions for intraoperative haemodynamics and muscle relaxant requirement in fess
11	10:10 - 10:20AM	541	Comparison of ketamine nebulization and ketamine gargle for prevention of postoperative sorethroat in patients undergoing general anaesthesia with endotracheal intubation
12	10:20 - 10:30AM	765	Comparision of haemodynamic changes between propofol and ketofol as induction agents in patients undergoing laparoscopic surgeries under general anaesthesia

(10-08-2024) HALL - F**TIME: 08:30 - 9:30 AM****Category - Oral Free Paper**

13	08:30 - 08:40AM	313	Effect of intravenous vitamin c and n acetyl cysteine on postoperative pain and opioid consumption after laparoscopic gynaecologic oncosurgeries a randomised controlled study
14	08:40 - 08:50AM	672	Comparative study of effect of clonidine with lignocaine and lignocaine alone infiltration in middle ear surgeries
15	08:50 - 09:00AM	376	A comparative study to assess efficacy of Dexamethasone as an adjuvant with Ropivacaine for Ultrasound guided sciatic popliteal block in patients undergoing foot surgeries.
16	09:00 - 09:10AM	571	Cost and consumption of sevoflurane versus isoflurane in entropyguided general anaesthesia with erector spinae plane block in laparoscopic cholecystectomy cases
17	09:10 - 09:20AM	558	10 percent lignocaine spray versus eutectic mixture of 2.5 percent lidocaine and 2.5 percent prilocaine to attenuate pain of peripheral venous cannulation in adults a clinical comparative study
18	09:20 - 09:30AM	440	Comparison between Preoperative IV clonidine vs nalbuphine in alleviating intubation stress response in patients undergoing elective ENT surgery.

(10-08-2024) HALL - F**TIME: 09:30 - 10:30 AM****Category - Oral Free Paper**

19	09:30 - 09:40AM	236	Comparison of sugammadex versus neostigmine for recovery of respiratory muscle strength in patients under general anaesthesia a randomised controlled trial
20	09:40 - 09:50AM	871	The effect of preemptive use of oral flupirtine for post operative analgesia in lower abdominal surgeries
21	09:50 - 10:00AM	1198	Combined efficacy of pantoprazole and metoclopramide on fasting gastric volume using ultrasound in diabetic patients with retinopathy prospective clinical trial
22	10:00 - 10:10AM	424	A clinical study of two different doses of dexmedetomidine as an adjuvant to intrathecal heavy bupivacaine (0.5 PERCENT) for lower limb orthopedic surgeries
23	10:10 - 10:20AM	754	Comparison of effect of inhaled anaesthetic (sevoflurane) versus intravenous (propofol) anaesthetic with and without nitrous oxide respectively on core and peripheral body temperature during general anaesthesia an interventional study.
24	10:20 - 10:30AM	938	Evaluation of the effect of cold normal saline as a carrier fluid in reducing propofol induced pain

(10-08-2024) HALL - G**TIME: 08:30 - 9:30 AM****Category - Oral Free Paper**

25	08:30 - 08:40AM	288	Randomised control trial of bispectral index with propofol induction 2mg/kg versus 1.5 mg/kg during endotracheal intubation in general anaesthesia
26	08:40 - 08:50AM	573	Comparison of the effectiveness of endotracheal instillation of lignocaine versus normal saline in prevention of cough during extubation after elective laparoscopic surgeries
27	08:50 - 09:00AM	1013	Correlation between cumulative balance and mortality in sepsis patients in intensive care unit.an observational study

28	09:00 - 09:10AM	567	Comparative analysis of glasgow coma scale score with full outline of unresponsiveness score in assessment of patients with traumatic head injury in intensive care unit a tertiary care centre study
29	09:10 - 09:20AM	436	Comparison of sonoanatomy of Medial oblique axis versus short axis view for safer ultrasound guided Right Internal jugular central venous catheter placement A Randomised control study.
30	09:20 - 09:30AM	1038	Is High Flow Nasal Oxygenation a Game Changer in Endobronchial Ultrasound guided Transbronchial Needle Aspiration
(10-08-2024) HALL - G			
TIME: 09:30 - 10:30 AM			
Category - Oral Free Paper			
31	09:30 - 09:40AM	1008	A comparitative study of propofol and dexmedetomidine in colonoscopy.
32	09:40 - 09:50AM	637	Impact of preoperative HBA1C on intraoperative hemodynamics and postoperative visual acuity in patients undergoing cataract surgery under loco regional anaesthesia a retrospective observational study
33	09:50 - 10:00AM	695	Comparison of insertion conditions of classic lma and igel lma in adult patients undergoing elective surgeries
34	10:00 - 10:10AM	745	Randomized clinical trial of comparison of pressor responses during and after tracheal extubation and lma (laryngeal mask airway) removal in controlled hypertensive patients
35	10:10 - 10:20AM	384	Comparison of a 3d printed video laryngoscope airangel (xl blade) with mcgrath (x3 blade) for intubation in adult manikin with simulated difficult airway
36	10:20 - 10:30AM	373	A comparative study of dominant vs nondominant hand laryngoscopy in simulated difficult airway using a cervical collar a randomized clinical trial
(10-08-2024) HALL - F			
TIME: 10:30 - 11:50 AM			
Category - Oral Free Paper			
37	10:30 - 10:40AM	369	Comparision between two different heights of operation table for ease of intubation using Cmac videolaryngoscopy in ramped position in patients undergoing surgeries under General anaesthesia A Randomised Study.
38	10:40 - 10:50AM	354	A prospective, randomised comparison of lmaprotector and slipa2g in patients undergoing laparoscopic surgeries
39	10:50 - 11:00AM	734	A prospective randomised comparative study to assess the safety and efficacy of ambu aura gain versus igel in adult patients under general anaesthesia
40	11:00 - 11:10AM	699	A comparative study between sniffing and ramp position for endotracheal intubation in adult non obese patient a prospective randomized observational study
41	11:10 - 11:20AM	274	Effect of head and neck positions on tracheal intubation using cmac video laryngoscope in adults
42	11:20 - 11:30AM	650	A Prospective Observational Study Comparing Acromio Axillo Suprasternal Notch Index with Modified Mallampatti Test and Thyromental Distance in Predicting Difficult Visualization of Larynx
43	11:30 - 11:40AM	860	A comparative study of king vision vedio laryngoscope and macintosh laryngoscope in adult patients for routine intubation a prospective obsevational study
44	11:40 - 11:50AM	628	Prediction of difficult airway in pediatric population by using anthropometric parameters like ratios of frontal plan chin distance to weight and thyromental distance to weight. A prospective observational study

(10-08-2024) HALL - G**TIME: 10:30 - 11:40 AM****Category - Oral Free Paper**

45	10:30 - 10:40AM	669	A cross sectional study of ultrasound airway parameters assessment for prediction of success of ambu auragain insertion in adult patients undergoing surgery under general anesthesia
46	10:40 - 10:50AM	229	THE EASE OF INTUBATION AND HEMODYNAMIC STRESS RESPONSE DURING LARYNGOSCOPY WITH mccooy AND VIDEOLARYNGOSCOPE IN GENERAL ANESTHESIA
47	10:50 - 11:00AM	521	Comparision of the effectiveness of macintosh and cmac videolaryngoscope in simulated cervical spine injury
48	11:00 - 11:10AM	773	Assessment of perioperative difficult airway among undiagnosed obstructive sleep apnea patients undergoing elective surgery under general ansesthesia a hospital based case series study.
49	11:10 - 11:20AM	286	A comparative study between conventional macintosh laryngoscope and video laryngoscope during endotracheal intubation in general anesthesia for elective surgeries
50	11:20 - 11:30AM	1176	Ultrasound guided measurement of optic nerve sheath diameter as a measure of icp in patients undergoing craniotomy under general anesthesia
51	11:30 - 11:40AM	1199	A comparative randomized study on effect of bispectral index versus end tidal anesthetic gas concentration guided protocol on time to tracheal extubation for isoflurane based general anestehsia
52	11:40 - 11:50AM	705	Comparing the effects and outcomes between general anaesthesia and combined epidural and general anaesthesia in elective lumbar spine surgery, a randomized control study

(10-08-2024) HALL - D**TIME: 02:00 - 03:00 PM****Category - Oral Free Paper**

53	02:00 - 02:10PM	755	A double blind comparative study between prophylactic intravenous granisetron and intravenous tramadol against perioperative shivering after subarachnoid block in lscs
54	02:10 - 02:20PM	859	A study to compare the hemodynamic changes in patients undergoing cesarean section under spinal anaesthesia when preloaded with crytalloid vs colloid.
55	02:20 - 02:30PM	665	A prospective observational study of relationship between anthropometric parameters and ephedrine requirement in women undergoing caesarean section under spinal anaesthesia
56	02:30 - 02:40PM	1046	A comparative study of haemodynamic characteristics with hyperbaric levobupivacaine 0.5 vs hyperbaric bupivacaine 0.5 for spinal anaesthesia in elective lower segment cesarean section cases
57	02:40 - 02:50PM	211	Comparative study on intravenous bolus doses of norepinephrine and phenylephrine for the treatment of hypotension during spinal anaesthesia for caesarean section
58	02:50 - 03:00PM	1118	Comparison of two different concentrations of epidural ropivacaine (0.15 vs 0.1) for labor analgesia a pilot study

(10-08-2024) HALL - D

TIME: 03:00 - 04:00 PM

Category - Oral Free Paper

59	03:00 - 03:10PM	132	Conventional priming versus ventilator assisted priming of anesthesia circuit with sevoflurane for induction of anesthesia prospective experimental study.
60	03:10 - 03:20PM	503	A comparative study to assess intraoperative haemodynamics and postoperative nausea and vomiting in total intravenous anaesthesia v/S balanced anaesthesia in thyroid surgeries
61	03:20 - 03:30PM	277	Comparative study of the effect of lignocaine nebulisation and spray for attenuation of hemodynamic response to laryngoscopy and intubation in patients undergoing elective surgeries under general anaesthesia
62	03:30 - 03:40PM	1161	Evaluation of the use of pulse oximeter to determine the clinical depth of anaesthesiaa prospective observational study
63	03:40 - 03:50PM	836	A study to compare fasting gastric volume using USG in diabetic and non diabetic patients coming for elective surgery
64	03:50 - 04:00PM	757	Comparison of three different doses of intranasal dexmedetomidine to attenuate haemodynamic stress response to endotracheal intubation A double blinded randomized controlled study.

(10-08-2024) HALL - D

TIME: 04:00 - 05:00 PM

Category - Oral Free Paper

65	04:00 - 04:10PM	990	Comparison of ultrasound guided residual gastric volume measurement between diabetic and nondiabetic patients scheduled for elective surgery under general anesthesia .
66	04:10 - 04:20PM	617	Implementation of Enhanced recovery After Surgery (ERAS) protocol in Live kidney donors (LKD)
67	04:20 - 04:30PM	366	Awareness outside ot, are the public really aware about the role of an anaesthesiologist
68	04:30 - 04:40PM	635	Study of hemodynamic parameters after airway nebulization with lignocaine 2 versus ropivacaine 0.5 on intubation response in patients undergoing surgeries under general anesthesia.
69	04:40 - 04:50PM	692	Tramadol post operative pain releif in different routescomparative study
70	04:50 - 05:00PM	659	Effect of 6 hydroxyethyl starch preadministration for reduction of pain on propofol injection.A placebocontrolled randomised study

(10-08-2024) HALL - D

TIME: 05:00 - 06:00 PM

Category - Oral Free Paper

71	05:00 - 05:10PM	138	Survey on ergonomic awareness and prevalence of musculoskeletal disorders in practicing anaesthesiologists
72	05:10 - 05:20PM	500	Target controlled infusion with propofol in middle ear surgeries a randomised controlled doubleblind trial on reduction in surgical bleeding with fixed dose intravenous infusion of fentanyl or dexmedetomidine
73	05:20 - 05:30PM	664	Comparision of effect of reverse trendelenberg position versus ramp position during preoxygenation on safe non hypoxic apnea period in obese patients
74	05:30 - 05:40PM	265	Assessment of perioperative atelectasis in laparoscopic cholecystectomy and laparoscopic gynaecological surgeries using lung ultrasound score

75	05:40 - 05:50PM	507	Hand grip strength as a measure of functional capacity against the metabolic equivalents
76	05:50 - 06:00PM	287	To evaluate the efficacy of transversalis fascia plane block and external oblique intercostal block for postoperative analgesia in laproscopic cholecystectomy
(10-08-2024) HALL - D			
TIME: 02:00 - 03:00 PM			
Category - Oral Free Paper			
77	02:00 - 02:10PM	837	Comparative study of conventional opioid based anaesthesia and opioid sparing anaesthesia in patients undergoing laparoscopic surgeries
78	02:10 - 02:20PM	244	Prospective randomised double blind study to evaluate antiemetic property of propofol in patients undergoing laparoscopic cholecystectomy.
79	02:20 - 02:30PM	1053	Comparative study of subdiaphragmatic and gall bladder bed infiltration of 20ml of 0.5 ropivacaine versus 20ml of 0.5 bupivacaine for post operative analgesia after laparoscopic cholecystectomy a prospective, randomised study
80	02:30 - 02:40PM	224	Comparative study of effects of intravenous fentanyl and dexmedetomidine on hemodynamic changes during extubation in patients undergoing surgery under general anaesthesia.
81	02:40 - 02:50PM	706	Comparison between cuff inflation technique with neck flexion versus conventional technique to aid nasotracheal intubation using videolaryngoscopy a randomised clinical trial
82	02:50 - 03:00PM	129	Opioid free versus opioid based anaesthesia for laparoscopic cholecystectomy, a randomized clinical trial.
(10-08-2024) HALL - F			
TIME: 03:00 - 04:00 PM			
Category - Oral Free Paper			
83	03:00 - 03:10PM	449	The Impact of Frailty on Postoperative Cognitive Dysfunction in Elderly Men Undergoing TURP A Pilot Study with the Edmonton Frailty Scale
84	03:10 - 03:20PM	660	Prospective, observational study of recall of discomfort on tracheal extubation after general anaesthesia.
85	03:20 - 03:30PM	563	Comparison of standard versus reverse technique for igel insertion in anaesthetised paralysed patients a prospective randomized study.
86	03:30 - 03:40PM	126	Comparative evaluation of propofol with ketamine, propofol with fentanyl, propofol with dexmedetomidine in terms of hemodynamic variables and recovery characteristics in upper abdominal surgeries under general anaesthesia.
87	03:40 - 03:50PM	417	Comparison of dexmedetomidine and magnesium sulphate for attenuation of stress response to laryngoscopy and intubation
88	03:50 - 04:00PM	304	To study the effect of varying time interval between fentanyl and propofol administration on propofol requirement for induction of anaesthesia

(10-08-2024) HALL - F**TIME: 04:00 - 05:00 PM****Category - Oral Free Paper**

89	04:00 - 04:10PM	674	Effect of aspirin gargle on postoperative sore throat in patients undergoing middle ear surgery under general anaesthesia.
90	04:10 - 04:20PM	840	Comparison of ketamine with magnesium sulphate as pretreatment for prevention of withdrawal response to rocuronium prospective randomised controlled study.
91	04:20 - 04:30PM	341	Evaluation of the use of airtraq with or without camera display unit for orotracheal intubation
92	04:30 - 04:40PM	258	Comparison of dexamethasone versus ondansetron for postoperative nausea and vomiting in laparoscopic cholecystectomy
93	04:40 - 04:50PM	798	Comparative Study of Intracuff Ketamine, Lignocaine, and Air in Reducing Postoperative Sore Throat in Elective Laparoscopic Surgeries
94	04:50 - 05:00PM	737	A comparative study of efficacy of preoperative dexmedetomidine nebulization with magnesium sulphate nebulization in reducing post operative sore throat in patients undergoing general anaesthesia.

(10-08-2024) HALL - F**TIME: 05:00 - 06:00 PM****Category - Oral Free Paper**

95	05:00 - 05:10PM	241	Comparative study of ultrasound guided transversus abdominis plane block versus local infiltration in postoperative pain management following laparoscopic cholecystectomy
96	05:10 - 05:20PM	677	Study of the antiemetic effect of dexmedetomidine in patients undergoing laparoscopic cholecystectomy surgeries under general anaesthesia
97	05:20 - 05:30PM	309	Comparative study of dexmedetomidine versus lignocaine on extubation quality and haemodynamic response in patients undergoing laparoscopic cholecystectomy
98	05:30 - 05:40PM	231	Comparing the effect of two different prophylactic doses of tranexamic acid in patients undergoing orthopedic surgeries
99	05:40 - 05:50PM	301	Effects of iv dexmedetomidine infusion on post operative analgesia in patient undergoing nasal surgery under general anaesthesia with intra operative nerve block
100	05:50 - 06:00PM	743	Elective surgeries in patients with cardiac implantable electronic devices, anaesthetic nuances and considerations.

(10-08-2024) HALL - G**TIME: 02:00 - 03:00 PM****Category - Oral Free Paper**

101	02:00 - 02:10PM	892	Comparison between alkalized lignocaine and placebo for inflating endotracheal tube cuff to reduce postoperative cough, sorethroat, hoarseness of voice, nausea and vomiting.
102	02:10 - 02:20PM	630	A comparative study of 10percent lignocaine spray versus emla to attenuate of peripheral venous cannulation in children
103	02:20 - 02:30PM	380	The COMPARITIVE effects of Dexmedetomidine AND fentanyl on Hemodynamics, Postoperative Sedation and Analgesia in Pediatric patients Undergoing Adenotonsillectomy
104	02:30 - 02:40PM	505	A comparative study of ketamine and dexmedetomedine versus ketamine and fentanyl for intravenous sedation in children undergoing infraumbilical surgeries under spinal anaesthesia

105	02:40 - 02:50PM	542	Observational study on predicting the size of endotracheal tube using middle finger length versus traditional formulae in paediatric population
106	02:50 - 03:00PM	736	Preoperative prediction of difficult airway in children aged 6 to 12 years undergoing elective surgeries
(10-08-2024) HALL – G TIME: 03:00 - 04:00 PM Category - Oral Free Paper			
107	03:00 - 03:10PM	838	A prospective observational study to compare perfusion index and cremasteric reflex as indicators of onset of caudal block
108	03:10 - 03:20PM	562	A comparison of the postoperative analgesic effectiveness of low dose caudal epidural block and usg guided dorsal penile nerve block by inplane technique for circumcision
109	03:20 - 03:30PM	1048	Endotracheal tube diameter estimation in pediatric patients and its comparison among four methods
110	03:30 - 03:40PM	381	Comparative study of ultrasound guided caudal block in paediatric age group with ropivacaine and bupivacaine.
111	03:40 - 03:50PM	1004	Efficacy of 0.25 bupivacaine and 0.2 ropivacaine in pericapsular nerve group block in positioning for spinal anaesthesia
112	03:50 - 04:00PM	828	Effect of action of local anesthetics in patients with previous history of scorpion bite
(10-08-2024) HALL - G TIME: 04:00 - 05:00 PM Category - Oral Free Paper			
113	04:00 - 04:10PM	771	Comparison of ultrasound guided transmuscular quadratus lumborum block with transversus abdominis plane block for postoperative analgesia in open unilateral inguinal hernia surgeries. A double blinded randomised control study
114	04:10 - 04:20PM	1037	Preoperative Ultrasonographic Assessment Of Inferior Vena cava Collapsibility Index In Predicting Hypotension After Spinal Anaesthesia A Prospective observational study.
115	04:20 - 04:30PM	242	A comparative study of ultrasound guided supraclavicular brachial plexus block using bupivacaine lignocaine and bupivacaine lignocaine with dexmedetomidine in asa i asa ii patients undergoing forearm and hand surgery.
116	04:30 - 04:40PM	1023	Comparison of bupivacaine 0.25 versus dexmedetomidine with bupivacaine 0.25 in adductor canal block for postoperative analgesia in knee surgeries
117	04:40 - 04:50PM	363	Comparison of Supra Inguinal Fascia Iliaca Block versus Femoral Nerve Block before Central Neuraxial Block in the sitting position for Fracture Neck of Femur Surgery.
118	04:50 - 05:00PM	640	A comparative study to assess the efficacy of hyperbaric levobupivacaine 0.5 with hyperbaric levobupivacaine 0.5 plus fentanyl (25MCG) on sensory and motor characteristics for spinal anaesthesia in lower limb surgeries

(10-08-2024) HALL - G**TIME: 05:00 - 06:00 PM****Category - Oral Free Paper**

119	05:00 - 05:10PM	539	Comparison of ropivacaine with dexamethasone and ropivacaine in infraclavicular brachial plexus block for postoperative analgesia.
120	05:10 - 05:20PM	437	Comparison of different doses of dexmedetomidine as intrathecal adjuvant to hyperbaric ropivacaine in lower abdominal surgeries a prospective randomised controlled study
121	05:20 - 05:30PM	248	Comparison of dexamethasone and magnesium sulphate as adjuvants to ropivacaine in ultrasound guided brachial plexus block,a prospective,randomised,doubleblinded study.
122	05:30 - 05:40PM	223	A comparative study of 0.75 ropivacaine and 0.5 levobupivacaine for thoracic epidural anaesthesia in modified radical mastectomies.
123	05:40 - 05:50PM	250	Comparison of perineural vs intravenous dexamethasone as adjuvant to levobupivacaine in ultrasoundguided femoral nerve block for lower limb surgeries
124	05:50 - 06:00PM	1009	Comparison of intrathecal 0.75 hyperbaric ropivacaine vs. 0.5 hyperbaric bupivacaine for lower abdominal and lower limb surgery an observational study

(11-08-2024) HALL - D**TIME: 08:30 - 09:30 AM****Category - Oral Free Paper**

125	08:30 - 08:40AM	421	A simple randomised study for comparison of efficacy of tizanidine and clonidine as oral premedications to control intraoperative shivering in patients under spinal anaesthesia
126	08:40 - 08:50AM	540	Comparison of hyperbaric ropivacaine and hyperbaric ropivacaine plus dexmedetomidine for elective infraumbilical surgery under spinal anaesthesia
127	08:50 - 09:00AM	804	A comparative study of usg guided interscalene block with superficial cervical plexus block vs general anaesthesia for fixation of clavicular fractures
128	09:00 - 09:10AM	762	Comparison of block onset and post operative analgesia between supraclavicular upper trunk block versus interscalene block in clavicle surgeries, A prospective observational study in a tertiary care hospital.
129	09:10 - 09:20AM	388	Measuring the accuracy of epidural space depth in transverse median vs parasagittal oblique view a prospective observational comparative study
130	09:20 - 09:30AM	887	Comparison between ultrasound guided b/l transverse abdominis plane (tap) block versus b/l serratus anterior plane (sap) block for post operative analgesic efficacy in laparoscopic cholecystectomies.

(11-08-2024) HALL - D

TIME: 09:30 - 10:30 AM

Category - Oral Free Paper

131	09:30 - 09:40AM	389	Comparing variable volumes of inj. Ropivacaine in ultrasound guided interscalene brachial plexus block a randomized controlled study.
132	09:40 - 09:50AM	760	Comparative study between dexmedetomidine vs. Dexamethasone as adjuvants to bupivacaine in ultrasoundguided transversus abdominis plane block for postoperative analgesia in patients undergoing lower abdominal surgeries
133	09:50 - 10:00AM	278	A comparative study between two usg guided approaches to sciatic nerve block the subgluteal and infragluteal approaches
134	10:00 - 10:10AM	502	Anesthetic Management of Progressive Lumbar Kyphosis in Ankylosing Spondylitis, A Case Report on Deformity Correction Surgery
135	10:10 - 10:20AM	207	A comparative clinical study ofultrasound guided versus peripheral nerve stimulator technique of interscalene brachial plexus block in upper arm surgeries
136	10:20 - 10:30AM	275	To compare ultrasound guided fascia iliaca compartment block versus pericapsular nerve group block to facilitate positioning for spinal anesthesia and postoperative analgesia in hip fracture surgeries

(11-08-2024) HALL - D

TIME: 10:30 - 11:30 AM

Category - Oral Free Paper

137	10:30 - 10:40AM	319	Study to know the enhancement of onset of nerve block with addition of lignocaine and dexamethasone to 0.5 bupivacaine in supraclavicular brachial plexus block a randomised prospective study
138	10:40 - 10:50AM	133	Utility of preoperative inferior venacava collapsibility index in prediction of hypotension in elderly patients undergoing spinal anaesthesia a prospective observational study
139	10:50 - 11:00AM	576	Pulse oximeter perfusion index as a predictor of hypotension in spinal anaesthesia for elective caesarean section
140	11:00 - 11:10AM	280	Ultrasound guided supraclavicular approach of brachial plexus block in paediatric patients, an observational study to assess its duration, differential blockade and recovery
141	11:10 - 11:20AM	235	A comparative study between intrathecal hyperbaric ropivacaine 0.75 plus dexmedetomidine 5 G and hyperbaric ropivacaine 0.75 plus morphine 100G for lower limb surgeries
142	11:20 - 11:30AM	383	Comparison of ultrasound guided subcostal transversus abdominis plane block using dexamethasone and clonidine as adjuvants with ropivacaine for postoperative analgesia in laparoscopic surgeries a prospective randomized double blind study

(11-08-2024) HALL - D**TIME: 11:30 - 01:00 PM****Category - Oral Free Paper**

143	11:30 - 11:40AM	209	A prospective randomised controlled clinical study for assessing postoperative analgesia using transverse abdominis plane block for lower abdominal surgeries
144	11:40 - 11:50AM	228	The efficacy of dexamethasone as an adjuvant in ultrasound guided supraclavicular brachial plexus block a randomised controlled trial
145	11:50 - 11:55AM	821	Comparative study of bupivacaine plus xylocaine with adrenaline versus bupivacaine plus xylocaine with adrenaline plus fentanyl in intrapleural block for postoperative analgesia for modified radical mastectomy cases
146	11:55 - 12:00PM	843	Comparison of ultrasound guided peng block with different volumes of 0.25 ropivacaine for positioning prior to spinal anaesthesia for hip surgeries a prospective randomised controlled study
147	12:00 - 12:10PM	666	A comparative study of ultrasoundguided lumbar erector spinae plane block and transmuscular quadratus lumborum block for postoperative analgesia in hip and proximal femur surgery
148	12:10 - 12:20PM	284	Comparison of ultrasound guided supraclavicular versus costoclavicular brachial plexus block for upper limb surgeriesa prospective randomised clinical trial
149	12:20 - 12:30PM	667	Estimation of skin to subarachnoid space depth in indian population a prospective observational study.
150	12:30 - 12:40PM	833	Efficacy of pericapsular infiltration with adductor canal block for post operative pain management in total knee arthroplasty

(11-08-2024) HALL - F**TIME: 08:30 - 09:30 AM****Category - Oral Free Paper**

151	08:30 - 08:40AM	377	The effect of ultrasound guided Erector Spinae Block (ESPB) using Ropivacaine with Fentanyl, Ropivacaine with Dexmedetomidine on intraoperative hemodynamics in patients undergoing lumbar spinal surgeriesa one year randomized clinical trial
152	08:40 - 08:50AM	273	Comparison of dexmedetomidine vs dexamethasone as an adjuvant for 0.5 ropivacaine in ultrasound guided supraclavicular brachial plexus block in upperlimb orthopaedics surgeries
153	08:50 - 09:00AM	269	Fentanyl as an additive to ropivacaine and lidocaine for peribulbar block in cataract surgeries a randomised comparative study
154	09:00 - 09:10AM	212	Comparison of efficacy of ultrasound guided quadratus lumborum block versus erector spinae plane block on postoperative pain in patients undergoing total abdominal hysterectomy
155	09:10 - 09:20AM	749	Ultrasonography guided external oblique intercostal block for post operative analgesia in upper abdominal wall surgeries under general anaesthesia Randomized controlled trial
156	09:20 - 09:30AM	118	A comparative evaluation of peripheral perfusion index VS anal sphincter tone to assess the onset of caudal block in pediatric lower abdominal surgeries

(11-08-2024) HALL - F

TIME: 09:30 - 10:30 AM

Category - Oral Free Paper

157	09:30 - 09:40AM	1024	A Comparison of efficacy of 0.25 percent ropivacaine with dexamethasone versus dexmedetomidine as an adjuvant in bilateral superficial cervical plexus block for post operative analgesia in thyroidectomy surgeries
158	09:40 - 09:50AM	764	A study to compare effects of 0.75 heavy ropivacaine alone plain vs 0.75 heavy ropivacaine with fentanyl as an adjuvant in infraumbilical surgeries Case series
159	09:50 - 10:00AM	425	A prospective randomised control trail, comparative study of intrathecal buprenorphine versus fentanyl as adjuvant to hyperbaric ropivacaine (0.75) in patients undergoing lower abdominal and lower limb surgeries
160	10:00 - 10:10AM	654	To compare the efficacy of hyperbaric ropivacaine 0.75 vs hyperbaric bupivacaine 0.5 on motor recovery and postoperative ambulation after spinal anaesthesia in infraumbilical surgeries
161	10:10 - 10:20AM	1026	An observational study between Hyperbaric Bupivacaine (0.5) vs Bupivacaine (0.5) with Dexmedetomidine 10 mcg to spinal anesthesia for lower abdominal surgeries.
162	10:20 - 10:30AM	455	A comparative study between intravenous lignocaine infusion and ultrasound guided transversus abdominis plane block plus rectus sheath block for hemodynamic stability in laparoscopic cholecystectomy surgery

(11-08-2024) HALL - F

TIME: 10:30 - 11:30 AM

Category - Oral Free Paper

163	10:30 - 10:40AM	466	Awake laparoscopic cholecystectomy under thoracic segmental spinal anesthesia a case series
164	10:40 - 10:50AM	246	The effect of dexmedetomidine in combination with bupivacaine on sensory and motor block time and pain score in supraclavicular block
165	10:50 - 11:00AM	841	Comparison of analgesic efficacy of dexamethasone and dexmedetomidine with ropivacaine in adductor canal block for lower limb surgeries a prospective randomised controlled study
166	11:00 - 11:10AM	222	Comparative study of efficacy of tramadol versus dexmedetomidine in controlling intraoperative shivering under spinal anesthesia.
167	11:10 - 11:20AM	612	Effect of Dexamethasone as an adjuvant to Levobupivacaine in Transversus Abdominis Plane block for postoperative analgesia in patients undergoing LSCS A prospective randomized double blind clinical study.
168	11:20 - 11:30AM	435	A comparative study of Ropivacaine 0.5 and Ropivacaine 0.5 with Dexmedetomidine 50mcg in ultrasound guided supraclavicular brachial plexus block for upper limb surgery

(11-08-2024) HALL - F**TIME: 11:30 - 01:00 PM****Category - Oral Free Paper**

169	11:30 - 11:40AM	281	Comparative study to evaluate clinical efficacy of subarachnoid block using hyperbaric levobupivacaine 0.5percentage versus hyperbaric ropivacaine 0.75percentage for infraumbilical surgeries
170	11:40 - 11:50AM	124	A comparative evaluation of hyperbaric ropivacaine 0.5 (18 mg) versus hyperbaric bupivacaine 0.5 (18 mg) for elective lower abdominal surgery under spinal anaesthesia
171	11:50 - 11:55AM	247	Comparative study on the efficacy of hyperbaric ropivacaine 0.75 versus hyperbaric bupivacaine 0.5 in elective lower limb surgeries under subarachnoid block
172	11:55 - 12:00PM	263	Effect of nalbuphine as an adjuvant to bupivacaine for ultrasound guided supraclavicular brachial plexus block.
173	12:00 - 12:10PM	528	Comparing efficacy of ultrasound guided bilateral erector spinae plane block versus subcostal transversus abdominis plane block with bupivacaine 0.25 for post operative analgesia laproscopic cholecystectomy
174	12:10 - 12:20PM	1162	A comparative study of 0.5 hyperbaric levobupivacaine with buprenorphine versus 0.75 hyperbaric ropivacaine with buprenorphine on motor and sensory parameters in patients undergoing infraumbilical surgeries
175	12:20 - 12:30PM	442	A prospective comparative study of efficacy of fentanyl vs buprenorphine as an additive to intrathecal hyperbaric bupivacaine in orthopaedic surgeries
176	12:30 - 12:40PM	651	Comparison of Dexmedetomidine and Magnesium Sulfate as Adjuvants with Ropivacaine for Spinal Anesthesia in Infraumbilical Surgeries and Postoperative Analgesia

(11-08-2024) HALL - G**TIME: 08:30 - 09:30 AM****Category - Oral Free Paper**

177	08:30 - 08:40AM	1126	Evaluation of magnesium sulfate in shortening the onset of action of injection Bupivacaine used for epidural anaesthesia
178	08:40 - 08:50AM	379	A comparative study on the preemptive effect oforal pregabalin vs oral clonidine for postoperative analgesia in patients undergoing infraumbilical surgeries under spinal anaesthesia
179	08:50 - 09:00AM	559	Efficacy of norepinephrine, ephedrine, and mephentermine for spinal anaesthesiainduced hypotension in caesarean section
180	09:00 - 09:10AM	239	Comparative study of post operative analgesic efficacy of bilateral superficial cervical plexus block using bupivacaine 0.25 vs bupivacaine 0.25 with dexamethasone 4mg for elective thyroid surgery under general anaesthesia.
181	09:10 - 09:20AM	221	Ultrasound Guided Pericapsular Nerve Group (PENG) Block for Ease of Positioning during spinal anesthesia Functional Recovery in Patients Undergoing Hip Surgeries
182	09:20 - 09:30AM	472	Comparative evaluation between perineural magnesium sulphate and intravenous magnesium sulphate as an adjuvant to ropivacaine in ultrasound guided supraclavicular brachial plexus block

(11-08-2024) HALL - G**TIME: 09:30 - 10:30 AM****Category - Oral Free Paper**

183	09:30 - 09:40AM	704	Effect of 0.1 ropivacaine with dexmedetomidine compared to 0.125bupivacaine with dexmedetomidine in ultrasound guided femoral nerve block for postoperative analgesia after totalknee arthroplasty a comparative observational study.
184	09:40 - 09:50AM	201	Comparision of morphine and dexmeditomidine as adjuvants to 0.5 hyperbaric bupivacaine in spinal anaesthesia in lower abdominal surgeries.
185	09:50 - 10:00AM	128	Comparison of spinal anaesthesia with hyperbaric ropivacaine (0.75) versus hyperbaric bupivacaine (0.5) for elective caesarean section a prospective comparative study
186	10:00 - 10:10AM	658	To compare the efficacy of transmuscular quadratus lumborum block vs intrathecal fentanyl for post operative analgesia in ceserean section patients a randomised controlled trial
187	10:10 - 10:20AM	529	A comparative study of bupivacaine with dexmedetomidine versus bupivacaine with dexamethasone in ultrasound guided serratus anterior plane block for post operative analgesia in unilateral breast surgeries
188	10:20 - 10:30AM	117	A comparative study of clonidine versus magnesium sulphate added to ropivacaine caudal block among paediatric lower abdominal surgeries

(11-08-2024) HALL - G**TIME: 10:30 - 11:30 AM****Category - Oral Free Paper**

189	10:30 - 10:40AM	512	A comparative study of two different current strength for supraclavicular brachial plexus block using nerve stimulator in patients undergoing upper limb orthopaedic surgery.
190	10:40 - 10:50AM	307	Comparison of isobaric levobupivacaine 0.5percentage with and without fentanyl in ultrasound guided supraclavicular block for elbow and forearm orthopaedic surgeries
191	10:50 - 11:00AM	194	The effect of clonidine and fentanyl as an adjuvant to epidural bupivacaine in elective lower limb and abdominal surgeries
192	11:00 - 11:10AM	368	Comparison of post operative analgesia for total knee replacement between adductor canal block vs epidural with 0.25 levobupivacaine given every 6th hour.
193	11:10 - 11:20AM	336	Efficacy of Different Doses of Epidural Dexamethasone with Bupivacaine Versus Plain Bupivacaine for Post Operative Analgesia in Patients Undergoing Abdominal Surgeries
194	11:20 - 11:30AM	756	A double blind comparative study of intrathecal hyperbaric levobupivacaine (0.5) with dexmedetomidine versus intrathecal hyperbaric levobupivacaine (0.5) with morphine for infraumbilical surgeries

(11-08-2024) HALL - G

TIME: 11:30 - 01:00 PM

Category - Oral Free Paper

195	11:30 - 11:40AM	387	A comparative study between tramadol and fentanyl as an adjuvant to ropivacaine for caudal anaesthesia in pediatric infraumbilical surgeries
196	11:40 - 11:50AM	225	Evaluating the efficacy of dexmedetomidine as an adjuvant to ropivacaine for ultrasoundguided sciatic nerve block via the popliteal approach
197	11:50 - 11:55AM	1191	Comparative study of perioperative analgesic efficacy of 0.15 levobupivacaine versus 0.25 ropivacaine for tonsillar pillar block in patients undergoing tonsillectomy a randomized double blinded trial
198	11:55 - 12:00PM	825	Effect of intravenous ketamine after spinal anaesthesia on duration of postoperative analgesia
199	12:00 - 12:10PM	638	Efficacy of preemptive ultrasound guided transverses abdominis plane block with dexamethasone added to bupivacaine for postoperative analgesia after laparoscopic surgeries
200	12:10 - 12:20PM	499	Comparative study of the incidence of ipsilateral hemidiaphragmatic paresis after a supraclavicular and costoclavicular brachial plexus blocka randomized controlled trial
201	12:20 - 12:30PM	433	Comparing the effect of midazolam versus fentanyl as adjuvants to intrathecal bupivacaine in patients undergoing total abdominal hysterectomy
202	12:30 - 12:40PM	784	To compare the efficacy of clonidine and dexmedetomidine as adjuvants to ropivacaine for postoperative analgesia in ultrasound guided suprainguinalfasciailiaca block for patients undergoing elective hip surgeries
