

WORKSHOP - 8

COURSE NAME: Fluoroscopy and Ultrasound guided cadaveric workshop on chronic pain.

COURSE DIRECTOR:

Dr. Ramachandraiah R
Professor Department of Anaesthesia and pain medicine
Bangalore Medical College and Research Institute

COURSE CO-ORDINATOR:

Dr. Satish Kumar MN
Assistant professor
Department of Anaesthesia and Pain medicine
Bangalore Medical College and Research Institute.

BRIEF OUTLINE AND OBJECTIVES OF THE WORKSHOP:

*The foremost priority of this workshop on chronic pain is to nurture the skills and competence among Anesthesiologists who aspire to become Pain Physicians.

*Fluoroscopy and Ultrasound have significantly contributed to image guided interventions in pain medicine.

*The workshop is designed to provide enough time for hands-on ultrasound scanning on volunteers and needling practice of fluoroscopy guided interventions on cadavers.

*You will have the privilege of learning from renowned experts who will guide you through focused interactions.

*We assure that the knowledge and skills imparted through this workshop will have a lasting impact in your practice.
